

MCF CASES FROM 1st JULY 2014 TO 30th JUNE 2015

This financial year, our team investigated, visited, interviewed and recorded two hundred and sixteen cases, slightly less than the previous financial year. The number of cases is a constant reminder of the welfare problem in our local Muslim community.

The vast majority of cases proved to be genuine with only a very small number that were rejected. Most were recipients from the Zakaat account or General account if there arose any uncertainty about the case.

Many clients have limited or no income and don't have the basic necessities, such as white goods, bedding and household items. Others are struggling to survive from week to week on Centrelink payments or part time work. A lot of clients are new arrivals, stuck on Bridging visas with no work rights. Many are forced to seek help from Christian based organizations. With constant increases in the cost of living, more people are finding it difficult to pay their rent or bills for essential services, such as rent, electricity and gas. This is the largest single expense and many people just simply cannot afford it.

We have also distributed food hampers and Qurban meat to the most needy. May Allah s.w.t. reward all the donors Inshallah.

Single parent families are the most vulnerable and with an increase in separations, divorces, domestic abuse, homeless cases and family breakdowns, it is usually the mother or wife left to manage on a very limited income.

MCF has paid funeral costs for those that cannot afford and see this increasing over time.

Others required urgent medical treatment, purchase of medical aids or payment of medical bills.

Many of our clients are referred to us from Government support agencies, Imams, Societies, and organizations.

Requests for help are received on a daily basis and much praise must go to all our members for helping with many of the cases.

I must thank all those who have contributed in any way, and pray for those less fortunate and humbly ask forgiveness for any mistakes made during the year.

A general breakdown of cases reveal the following:
